Objective

My goal is to build and add value to your company. I love landscaping, I'm very resourceful and want to be an asset. I've been landscaping for eight years I also worked at warehouses and fast food restaurants, etc. I'm used to long hours and I'm also available to work on the weekends if that's what's needed. I'm currently in the process of completing my business degree. I have good communication skills and I work well with people. I try to create a safe, productive, and fun work environment wherever I go. I want every customer that I work for to love their lawn and to be proud to have us as their landscapers.

Work Experience

William Hyde

March 2024- July 2025

Homegrown landscaping

- I was a mow foreman, I would do 13 to 18 lawns a day on average, I was responsible to run a crew and make sure mulch jobs, pruning and brush removal, etc. will be done efficiently and in a timely manner
- Also did stone and Masonary work
- I would operate a dingo and other machinery.

Mark Hyde

On call - part time

OCD landscaping

- I come in and help plow in the winter when it snows
- Also help with masonry and stonework
- Also work with the crew to do perennials and pruning edging, mulching, etc.
